journal of MEMBRANE SCIENCE

Subject Index

Acetic acid, 107
Alkali cation transport, 267

Bromine, 263

Carrier-mediated transport, 267
Composite membranes, 199
Coupled transport, 75
Critical flux, 165
Cross-flow filtration, 209
Cycling performances, 155

Daramic, 35
Deposit, 173
Diffusion, 47, 263
DVB, 35

Electron microscopy, 209

Facilitated transport, 59
Fouling reduction, 165
Fractionation, 173
Freezing/thawing, 229

Gas and vapor permeation, 263
Gas separations, 47, 263
Grafted separator, 155

Hydrogels, 229, 239
Hydrogen, 147
Hydrophilic monomer, 155

Infrared technique, 249
Inorganic membrane, 147
Intermetallic diffusion, 147
Ion-exchange membrane, 219
Ion-exchange membranes, 199

Kinetics of grafting, 155

Liquid membranes, 59, 75
Lithium battery, 155

Membrane fouling, 165
Membrane mechanisms, 1
Membrane preparation and structure, 93, 239, 249
Membrane solvents, 267
Membrane stability, 59
Membrane treatment, 263
Metal membrane, 147
2-Methacryloyloxyethyl phosphorycholine, 209
Methanol, 193
Methyl-*tert*-butyl ether, 193
Microfiltration, 165
Microfiltration membranes, 209
Microporous and porous membranes, 47, 93
Model, 23
Montmorillonite membrane, 87
Multicomponent penetrants, 129

Nafion® membrane, 219
Nanofiltration, 107
Neutral carriers, 267

Organic/aqueous mixtures, 277
Organic separations, 199

Palladium, 147
Permeation, 23
Pervaporation, 129, 193, 199, 277
Phase separation, 93
Phenol removal, 59
Phospholipid coating, 209
Platinum and palladium, 283
Poly(acrylic acid), 239
Poly(ether ether ketone) membranes, 93
Poly(vinyl alcohol), 229, 239
Pore-flow, 1

8-Quinolinol derivative, 283

Rejection, 173
Reverse osmosis, 87

Seebeck coefficient, 219
Selective transport, 283
Selectivity, 173
Semicrystalline membrane preparation and structure, 229

Separation, 87, 283
Silicalite membrane, 193
Solubility and diffusivity models, 129
Solubility and partitioning, 229
Solution-diffusion model, 1
Stability, 75
Sulfonation, 35
Supported liquid membrane, 283
Supported liquid membranes, 267
Surface tension gradients, 75

Temperature measurement, 249
Theory, 249
thermally-induced, 93
Thermocell, 219
Transported entropy, 219
Transport equations, 1

Ultrafiltration, 173

Vanadium redox battery, 35
Vapor permeation, 277

Zeolite, 193
Zeolite filled membrane, 23
